

ELL 406 – Research Methods and Paper Writing

Criteria for Evaluating the Research Outline and the Methodology

Please note that this assignment is out of 10 points.

1. Has the student indicated the theoretical framework to be used? Is this framework applicable to the intended analysis?
2. Has the student provided enough support for the rationale behind selecting this theoretical framework? (link with the main argument)
3. Has the student provided an outline of the essay (with intended sections and sub-sections for analysis)?
4. Has the student provided a description of the analysis strategies and methods to be used? Are these methods appropriate for the selected theoretical framework? Are these methods appropriate to support the intended arguments?
5. Are the selected data/extracts/characters enough for the intended analysis?
