

Criteria for Mini Literature Review

In this assignment, students are asked to find research-based sources for their projects and provide a mini literature review, i.e. summarize the sources, and show how they relate to their own work.

Please note that this assignment is out of 15 points.

The sources are:

1. The sources are relevant to the research question(s).
2. The sources are academic (research-based) and credible.
3. The sources are summarized properly.
4. The student shows how each source relates to their study/research question.
5. Writing is clear and concise.
6. In-text citations and reference list citations are complete and properly formatted in APA style.
