

Criteria for Poster Draft

In this assignment, students are asked to design a poster for their project using PowerPoint or a similar software. After your feedback, the students will revise their work and print it on paper for in-person presentations.

Please note that this assignment is out of 10 points.

Design features:

1. Bullets, numbering and subtitles are used to make it easy to read.
2. Results are displayed clearly in charts/tables where possible.
3. It has a consistent and clear layout.
4. Fonts are large enough to be readable from a distance (when printed).

Content:

1. It has a short and interesting title
2. It includes: an introduction, methods, results and interpretation/conclusion.
3. It includes important/interesting findings of the project.
